Save planet from plastics

Plastic Bag Recycling Program

Invitation to World Environment Day observation at BMT Wing SCTIMST

The event started with the Welcome address by Shri. Nagesh D. S. followed by the Inaugral address by Prof. Sanjay Behari, Director SCTIMST.

The logo of Green Protocol implementation at SCTIMST was unveiled by Prof. Sanjay Behari.

The Green protocol logo gives us the message that a healthy mother earth is essential for sustaining healthy life of mankind.

This was followed by World Environmental Day message delivered by Dr. Harikrishna Varma, Head BMT Wing. Shri Sajithlal M. K. gave a presentation on the implementation of Green Protocol in SCTIMST. The need to work together for a healthy planet through adopting Green protocol in our professional and personal life was stressed. Green protocol implementation facilitates scientific collection, segregation and disposal of waste without harming the environment. Shri Subhash Kumar M. S. demonstrated an in-house developed device with an innovative design for the collection of plastic food packaging materials. Different colored containers for the collection of biogas compatible as well as non-compatible food waste, recyclable materials, and dry waste in the campus were demonstrated. Implementation of Green protocol methods was first initiated at the canteen of BMT Wing.

Dr. Gijo Raj compared the event and Mrs. Jasmin Joseph delivered the Vote of Thanks. The event concluded by serving light refreshments.
