

TECHNOLOGY TRANSFER

The know-how for manufacturing the product “Drug Eluting Bioactive Calcium Sulfate Cement”, developed in the Bioceramics Division of Biomedical Technology Wing, has been transferred to M/s Onyx Medicals Pvt. Ltd, Meerut, UP. This is a new generation bone cement product for treating bone infections by delivering antibiotics locally from a bioactive material matrix. The Technology Transfer Agreement has been signed by Dr. Sanjay Behari, Director, SCTIMST and Mr. Harsh Vardhan, Onyx Medicals, Meerut, on 13th September 2022. Dr. Manoj Komath, the leader of the product development team, handed over the signed document to the officials of Onyx Medicals.
