WORKSHOP ON 'ANALYSING MEDICAL AND HEALTH DATA USING 'R''

Achutha Menon Centre for Health Science Studies (AMCHSS) is conducting a two-and-a-half day workshop on 'Analyzing Medical and Health Data using R', on 28-30 September 2015 at the centre. The workshop instructor will be **Professor V Raman Kutty**. The workshop introduces participants to the use of 'R', software on the free platform which can be used for data analysis, graphics, and statistical model building. R is getting increasingly popular among scholars and researchers the world over who are keen to do their own data processing. An exposure to R is considered a basic skill for aspiring researchers in many fields, including medicine and health.

The workshop covers two and a half days (28-30 September 2015), the first two days of which will introduce the participant to R. The third day will be devoted to 'ggplot2', a special graphics package within R. Participants have the choice of attending all three days, or only the 'R' workshop or 'ggplot2' session independently. The fees for attending the whole workshop will be Rs 3000, for 'R workshop' only Rs 2500, and for the 'ggplot2' session, Rs 500. Those interested may please send a mail with their contact details to [r4analysis@gmail.com](mailto:r4analysis@gmail.com). The last date for registration is 25 September 2015.
