

## *Inauguration of AMCHSS COVID-19 Dashboard*

AMCHSS developed an interactive dashboard to visualize the COVID-19 situation in India. The dashboard uses data science and epidemiological methods to monitor and track the spread of COVID-19. It offers insights into the transmission dynamics and progression of the epidemic to the public health programme managers, scientific community and general public.

Prof. Sankara Sarma, Head AMCHSS, launched the dashboard on 1<sup>st</sup> June 2021, and Dr. Arun Mitra made a detailed demonstration.

The dashboard is available at: [https://amchss-sctimst.shinyapps.io/covid\\_dashboard/](https://amchss-sctimst.shinyapps.io/covid_dashboard/).

The Launch of AMCHSS COVID-19 Dashboard on 01/06/2021
